

Product Requirements Document (PRD)

Chapter One — MVP

Objective

Build a dating platform that replaces endless swiping with one thoughtful introduction at a time, encouraging meaningful interaction before appearance-based judgment.

Target Users

- Young professionals (20–35)
 - Users seeking meaningful relationships
 - People frustrated with swipe-based dating apps
-

Core Features

1. Authentication & Onboarding

- Email/Phone authentication
 - Government ID verification
 - Profile creation
 - Upload photos
 - Record voice introduction
 - Interests & relationship preferences
-

2. Smart Introductions

- No swiping
 - One introduction is always waiting
 - Maximum 3 active introductions
 - Compatibility-based matching
-

3. Guided Icebreaker

Each introduction starts with:

- Conversation prompt OR

- Collaborative activity

Users may skip and chat normally.

4. Progressive Profile Reveal

Initial View:

- First name
- Age
- Occupation
- Location
- Short bio

Unlock Sequence: 1. Voice intro 2. Prompt responses 3. Full photos

Unlocks are based on interaction, not time.

5. Chat

- Real-time messaging
 - Read receipts
 - Typing indicator
 - End conversation anytime
-

6. Safety

- ID verification
 - AI moderation
 - Report user
 - Block user
-

User Flow

1. Sign up
2. Complete profile
3. Verify identity
4. Wait for introduction
5. Open app
6. Meet your introduction
7. Complete icebreaker (optional)
8. Chat

9. Unlock profile
 10. Continue or end conversation
-

Success Metrics

Primary:

- % introductions becoming first dates

Secondary:

- Conversation completion rate
 - Mutual continuation rate
 - Retention
 - Safety reports
 - Match satisfaction
-

MVP Out of Scope

- Video calling
- Peer verification
- AI relationship coach
- Premium subscriptions
- Couple features
- Social feed
- Profile browsing
- Super Likes
- Boosts
